

Mister CO2: Life after Kyoto

Author/Director: Yves Billy

Producer: Auteurs Associés

Country: France

Length: 52'

Progress and growth are both synonymous with pollution. From Kyoto to Copenhagen the release of CO2 in the atmosphere has not stopped increasing. The critical line has been reached.

A whole range of so-called sustainable technologies are already carried out but no solution seems truly feasible without a real global regulation, which could mark the emergence of the 21st century's environmental construction.
