

This is My Body

Author/Director: Jérôme Clément-Wilz

Producer: Squawk

Country: France

Length: 60' & 64'

"When I file a complaint against the former priest Olivier de Scitivaux, I compulsively pick up the camera. I've forgotten everything about my childhood, and my parents are entangled in denial. I didn't expect the procedure to take so long. Above all, I never thought I'd ask myself one day: what happened to my body? And who knew? "

In a cinematic gesture in the first person, both intimate and political, *This is My Body* examines the micro-histories that make up rape culture, memory as an unfathomable drawer.
