

Love Exposed

Author/Director:

Producer: HYPERMARKET FILM

Country: Czech Republic

Length: 95'

Blanka films her father, renowned photographer Vlastimil, whose Taschen monograph on the nude circled the globe while he remained a stranger at home. In the forests along the former Iron Curtain -- land preserved by decades of prohibition -- she finds his open-air atelier: avantgard sculptures, obsessive arrangements, a private universe. As protagonist, narrator, and editor, Blanka turns the camera not to capture him, but to understand herself. A film about the freedom that comes when we stop expecting.
